Level Goal

The password for the next level is stored in a file called `--spaces in this filename--` located in the home directory

Step1: Establish a SSH connection

bandit2@51.20.162.29's password:
```

Establish a ssh connection as you know how to get the ip

Step 2: Enter the password that we saw on previous level

```
Open ▾   
1 PK8fYLZg2hnHSz83plBL1iEPKdD3QToBS
```

This is password from previous level

Step 3: ls command to check the files

```
bandit2@bandit:~$ ls -l  
total 4  
-rw-r----- 1 bandit3 bandit2 33 Jun 24 14:59 --spaces in this filename--
```

Step 4: This is the real command you have to remember

```
bandit2@bandit:~$ cat "--spaces in this filename--"

```

This command helps to look into the file which contains the spaces in the file name. The classic one.
