

Bandit Level 1 $\rightarrow$ Level 2

The password for the next level is stored in a file called—located in the home directory

Step 1: NSLOOKUP bandit.labs.overthewire.org

```
(kali㉿kali)-[~]
└─$ nslookup bandit.labs.overthewire.org
Server:      100.127.255.165
Address:     100.127.255.165#53

Non-authoritative answer:
Name:   bandit.labs.overthewire.org
Address: 51.20.162.29
```

look for the ip of the site as it changes the ip

Step 2: SSH Connection Establishment with `bandit1@your_ip`

```
(kali㉿kali)-[~]  
$ ssh -p 2220 bandit1@51.20.162.29
```

```
This is an OverTheWire game server.  
More information on http://www.overthewire.org/wargames
```

```
backend: gibson-1  
bandit1@51.20.162.29's password:  
Permission denied, please try again.  
bandit1@51.20.162.29's password:  
Permission denied, please try again.  
bandit1@51.20.162.29's password:
```

```
www. ver he " ire.org
```

Step 3: Check you you are first

```
bandit1@bandit:~$ whoami  
bandit1
```

If you are bandit1 then, it's good. By now you would know that whether who you are

Step 4: Cat *./filename* in this case *./-*

```
bandit1@bandit:~$ cat ./-  
PK8fYLZg2hnHSz83plBL1iEPKdD3QToB
```

Actually this is the main point on this chapter, how look at the file who have the—in file name.
